20HP max, 4 pers
56 kg (123 lbs)

ATLANTIS LITE boats are designed for customers looking for lightweight and spacious RIB tenders. This series of boats includes four models: A240, A270, A300 and A330. The main advantage of these boats is a standard panel on the bow of the boat that allows standing, sitting or securing a fuel tank, which optimizes the use of space. The patented «GALA - TABS» hull design provides easy exit to the glider and dry running, which makes these boats comfortable and safe in using. The sliding system of aluminum seats allows to conveniently organize a cockpit according to your needs.

Elegant design and original GALA fittings add sophistication to these boats. Tubes are available with PVC or HYPALON in different colors, which allows you to choose the option that best meets your requirements and wishes. In addition, each boat is equipped modern overpressure valve to protect against over pumping. These tenders are an ideal choice for those who appreciate lightness, comfort and high performance characteristics.

A300-LITE

«GALA - TABS» hull design - significantly improves the performance of the boat, provides a quick exit to the gliding mode and reduces fuel consumption

A footrest in the bow, which can be stepped on, sat on or secured the fuel tank using a fastening strap

Quality fittings with branding from GALA guarantees reliability and style in every detail of your boat

An under-seat bag below an aluminum seat is a convenient and practical accessory for storing things on board which is easy to attach

Each GALA boat is equipped with an advanced overpressure valve that protects against overheating and over-inflating

Each model is equipped with a sliding aluminum seat with additional seat available

An overall cover effectively protects your boat from ultraviolet rays and atmospheric precipitation

Each GALA Atlantis-LITE is extremely low weight. It makes them an unbeatable choice if you need something lite

luxé RIB tenders

V500

V500

VIKING V500 is one of the most popular models in GALA line. This model opens a new extensive series of cruising RIB with aluminum hulls, suitable for heavy sea conditions and high waves.

This model is 5 m (16'5") long, rated for 100HP engine, being the most compact RIB with four-units cockpit configuration on a market. It features:

- Bow locker with cushion and seat back,
 - Fiberglass steering console with front seat,
 - Wide rear seating with folding seat back and large rear storage compartment.
 - Two rear walking platforms with motor well add a nice touch of comfort and safety.
 - The boat comes with some unique optional features from GALA:
 - Original GALA T-top with aerodynamically profiled framing.
 - Heavy-duty welded towing arch with two mooring cleats and waterski towing post. These make this model an excellent choice for watersports, family cruising or just relaxed boating across the waves.
- The boat comes with two choices of tube material: either HYPALON and PVC with nice selection of colors and original GALA styling.

«GALA-JET» tube/hull design is a key to exceptional performance

Each GALA Series - F model has a plenty of space and impressive capacities

All boats feature heavily anodized aluminium floorboards for extended lifetime

Each boat has a substantial keel and V-bottom for cutting waves and soft ride

FREESTYLE tenders from GALA are represented across 8 models and constitute a new and fresh design in the class of foldable boats with floorboards or airdeck. Key features are:

- Each model is equipped with the «GALA-JET» inflatable tube, allowing for an impressive carrying capacity and power rating.
- Each model comes with two aluminum sliding seats (1 on FREESTYLE F240) and aluminum floorboards.

· Every unit is expertly equipped only with genuine GALA fittings and accessories.

There are 12 models in the series and two flooring options:

- FREESTYLE F240, F270, F300, F330, F360, F390, F420, F450 - with solid aluminium floorboards and inflatable keel.

- FREESTYLE F240A, F270A, F300A, F330A - with high-pressure airdeck and inflatable keel.

In creating this line of tenders, we offer something entirely different in comparison to other boats available on the market: unprecedented quality of design, engineering and craftsmanship in each boat.

42 kg (92 lbs)

Our series of inflatable canoes developed in, an extension of and innovation on a symbol of Canadian identity. The avantgarde concept is creating a new facet in the canoe industry, as well as the inflatable boating industry, pioneering a more advanced and versatile canoeing lifestyle.

CHALLENGER canoes retain classic canoe features while incorporating contemporary materials and technology for an unbeatable alternative:

- They are UNSINKABLE and are significantly more STABLE, - They do not flip over, unless you want it to.
- They are LIGHT, COMPACT and fit the car trunk. No need for strapping anything to the roof of a car.
- They PERFORM. Motor compatible, enabling you to reach your island or cottage doing up to 30 km/h.
- They are COMFORTABLE. Seating is situated higher and with lots of cockpit space around.
- They have remarkable carrying capacities! You will be impressed at how much gear you can take.

C520

You can safely carry a lot of gear with you for hundreds of kilometers at high speed

The concept of GALA Canoe is the most advanced and versatile design on a market today

Bow deflectors and rubrail makes your ride dry and comfortable at all speeds

Paddling with GALA canoes is very easy and enjoyable. Assemble it in 5-7 min and have fun paddling

Removable bow dodger

Experience an exceptional performance of GALA canoes! You can get on plane with 3HP and fly at over 30km/h with 8HP

Fishing panel with rod holders

The folding canoe is distinguished by its compact size, which makes it ideal for convenient transportation and storage

Each GALA Atlantis-LITE is extremely low weight. It makes them an unbeatable choice if you need something lite
